

Safety Precautions

- Please use under acceptable voltage and amps range to prevent damage to equipment
- It's normal for the surge protector to be a little warm when you use it to charge multiple devices.
- When your device ran out of the battery and power off, some devices may be charged a little slower at the beginning because of the battery protection from your device.
- Please avoid beating or crashing the surge protector.
- Always away from heat and water in case of short circuit. Please keep the power strip away from children, fire, heat, water.

Warranty

18-month warranty available.

Contact Us

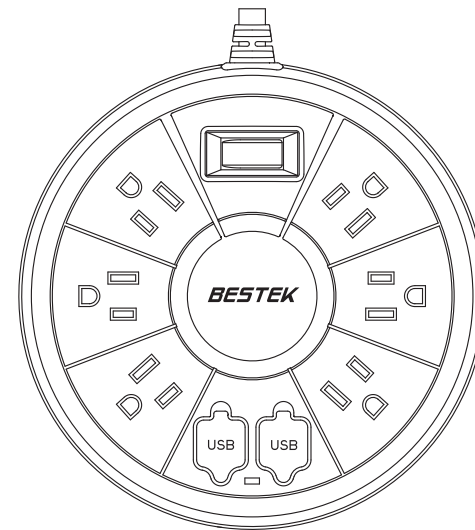

If you have any problem in using this power strip, please feel free to connect with us. We will certainly give you a respond and help you to solve your problem.

USB Power Strip
Model: MRJ6008

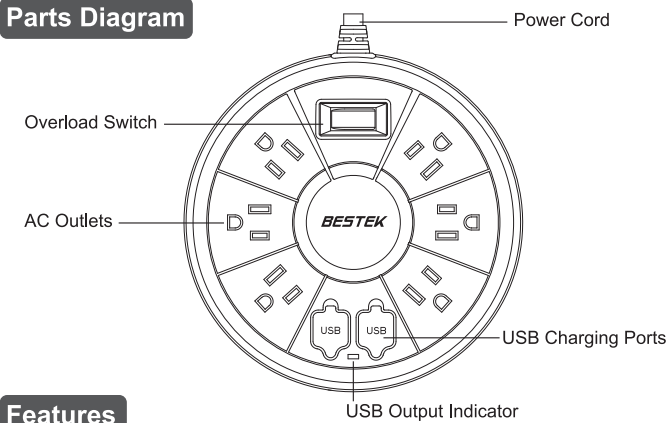

Thank you for choosing this surge protector from our store. The product is smooth in operation, convenient for installation, adjustment and maintenance. Your choice saves your time.

Introduction

This power strip can convert one standard US outlet into 6 standard US outlets, total power is 1625W. 4 USB charging ports integrated with advanced communication chip can automatically identify the type of devices, and provides them with the fastest and most suitable charging speed. Suitable for all brands of mobile phones and digital electronic products.

Parts Diagram

Features

- ◇ 3 Smart USB Ports +1 quick charge USB Port: Simultaneously charge up to 4 USB devices (5V output) such as cell phones, tablets, e-readers, USB battery packs and etc at up to 2.4A per port, 6A total.
- ◇ 6 US standard AC outlets with built-in surge protection, charging and protecting your home and office electrical appliances, computers, laptops, printers, modems, speakers and more.
- ◇ Unique Design: The UFO shape design provide more space between each outlets, making full use of each port, it provides more room than a regular power strip.
- ◇ Safe and Convenient: Lighted on/off switch with integrated circuit breaker for overload protection of all outlets. 6-foot heavy-duty power cord allows you to keep the surge protector in an unobtrusive location while making sure it reaches your devices.

1

- ◇ Multiprotect Safety System: PC alloy ABS, performs good in flame retardant and scratch proof, built-in high quality Phosphor Copper wire, Premium Circuitry with corrosion resistance, over-heated, overload, over-charging protection and short circuits.

Product Instructions

- Connect the cartoon power strip to the electricity, it will extend 1 AC outlet to 6 AC outlets and 4 DC USB ports.
- Turn on the power strip.
- Connect your electrical appliances to AC or USB ports

Specification Parameter

AC Input	13A 125V~ 1625W
USB Input	100-250V~ 50Hz/60Hz 0.8A Max
USB Output	5V=2.4A (Auto 2.4A Max Per Port)
USB Output Power	30W (Total)
QC 3.0 Output	3.6-6A=3A; 6-9V=2A; 9-12V=1.5A
Joule Rating	220J
Protection Features	USB output over-current protection, AC output overload protection, USB output over voltage protection, USB output short circuit protection
Socket Structure	6 US standard AC outlets
Working Environment	Temperature: -5~40 C Humidity: 10~90%
Storage Humidity	Temperature: -20~80 C Humidity: 5~95%
Cord Length	1.8m
Size	φ164.0mm×40.5mm
Weight	628g
